

The FCS Mission: Forcey Christian School creates an environment, built on Biblical principles, to develop the whole student – mind, body and spirit– through excellent academic education, multiple extracurricular activities and qualified, Christian faculty, equipping students with essential life skills while instilling the disciplines of Christian life and Christ-like character.

The FCS Vision: To train-up future generations of servant-leaders, who impact their world spiritually, intellectually, and socially, while leading lives that bring glory to Jesus Christ.

At Forcey Christian School, our mission is to support parents in the physical, mental, and spiritual health of their children. To assist parents with resources, we have collected some local mental health counseling centers who we recommend as possible places to start. If you are looking for a trusted, Christian counselor, we invite you to start below.

Mental Health Counseling Resources for Parents and Families

1. Lauren Powers with Powers Counseling
